# Eisenhower Matrix: Laundry Advisor Project

## Prioritization Matrix

| Urgency / Importance | Urgent | Not Urgent |
|---|---|---|
| **Important** | **1. DO (MVP Core Features)**<br>• Multiple choice input for load size (Small, medium, large)<br>• Multiple choice input for colors (white, dark, multi coloured)<br>• Multiple choice input for fabric type (Delicates, polyester, regular)<br>• Logic code for evaluation and creation of the recommended wash output. (Temperature, cycle, dryer)<br>• Handling invalid inputs. | **2. SCHEDULE (High-Value Enhancements)**<br>• Logging clothing tags<br>• Tracking previous washes<br>• Stain remover guide |
| **Not Important** | **3. DELEGATE (Secondary / Operational)**<br>• Visual representations of instructions.<br>• Increasing the range of input by using open ended questions, rather than multiple choice. Allowing to answer more diverse user problems.<br>• Product recommendations. | **4. ELIMINATE (Out of Scope / Distractions)**<br>• Integration of program selection with the laundry machines.<br>• Social sharing and commenting.<br>• Creating badges, rewards for completing laundry. |

| Urgency / Importance | Urgent | Not Urgent |
